**DETAILED ACTION**

***Election/Restrictions***

Applicant's election without traverse of Group I, claims 1-13 in Paper No. 14 is acknowledged.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3, 26-27 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by either of Krieter et al. or Ehrly et al.

The claim merely requires the intent to increase plasma viscosity with the use of a viscosity-increasing agent. Both references teach the increase of plasma viscosity with a viscosity-increasing agent. Since there is no other object of the cited claims, the references are deemed to anticipate the cited claims.

***Allowable Subject Matter***

Claim 4-6, ~~28~~-29 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 7-13, 30-49 are allowed.
